

Bullet-Proof! How to Achieve GREAT RESULTS in any Economy

As you scan all the areas of your life (or your business), are you thrilled with your current results or do you want to achieve more? Are you apprehensive that things may take a turn for the worse and you won't be able to sustain your performance level?

In this program, Results Coach and Consultant Peter D. Winiarski will help us understand some underlying principles of Success, and how to apply them to improve our results today. These are core principles of long-term and sustainable success.

These are the very principles that business leaders going back as far as self-made billionaires Andrew Carnegie (Carnegie Steel Company) and W. Clement Stone (The Combined Insurance Company of America/Aon Corporation) and others have used to enable unprecedented levels of success in their organization.

These underlying principles are distilled down to the basic foundation upon which other skills and methods can be built. This workshop contains many simple exercises that Pete will lead you through and a few success secrets that Pete will expose for you to enable you to put your new knowledge to work right away.

This program is typically an all-day workshop, but the content can be customized to fit durations from a 1- hour keynote to two days (or longer) of in-depth content tailored for your organization. It also fits perfectly as the first "course" within a longer-term leadership development or success skills program. This workshop also complements Pete's 10-week "Results Coaching" program.
